PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and supporting web applications across React, JavaScript, TypeScript, Node.js, Java, Spring Boot and REST APIs. Experienced in Agile delivery using Azure DevOps, with recent work on Azure OpenAI and RAG-based enterprise applications, plus exposure to transport/logistics platforms and banking domain concepts. Practical problem-solver with clear communication across technical and business stakeholders.

TECHNICAL SKILLS

Back-End: Java, Spring Boot, Node.js, RESTful APIs

Front-End: JavaScript, TypeScript, React JS, HTML, CSS

Database & Cloud: PostgreSQL, Microsoft Azure (Azure Fundamentals)

DevOps / Tools: Azure DevOps (Boards, Repos, Pipelines), Git, NPM

AI / RAG: Azure OpenAI, RAG, prompt engineering, document retrieval, conversational AI

Domain Knowledge: Banking, Transport & Logistics

WORK EXPERIENCE

Full Stack Developer

Apr 2024 – May 2026

Techno Connex Pty Ltd, Sydney, Australia

- Developed and delivered full stack web applications using JavaScript, TypeScript and React JS, supporting large-scale fleet management and logistics platforms used by business and operations teams.
- Built an enterprise AI chat application with Azure OpenAI and RAG, enabling users to upload company documents, ask questions in natural language, retrieve relevant information and book meetings in-app.
- Implemented document-based knowledge retrieval and workflow automation, improving internal information access and user productivity.
- Managed sprints, source control and release pipelines using Azure DevOps (Boards, Repos, Pipelines).
- Collaborated with solution designers, architects, vendors and business stakeholders through development and roll-out of business applications.

Career Break – Family & Professional Development

Mar 2022 – Mar 2024

- Planned break for family responsibilities and maternity leave; maintained and extended technical skills through formal training, self-learning and practical projects in modern web development.

Junior Developer

Feb 2019 – Feb 2020

V-Soft Technologies, India

- Developed and maintained features for a web-based single sign-on and multi-factor authentication platform used by banks and credit unions.
- Participated in daily scrums, sprint planning, unit testing and bug fixing, and contributed to quality standards and continuous improvement practices.

EDUCATION & TRAINING

Web Development Bootcamp

Nov 2021 – Feb 2022

Generation Australia, in partnership with Academy XI

- 12-week full-time intensive program covering HTML, CSS, Bootstrap, JavaScript and NPM; final project delivered a Task Planner website.

Bachelor of Technology, Electronics & Communications Engineering

2014 – 2018

Kakinada Institute of Engineering and Technology
